Personal Profile

I'm a passionate Web Developer who thrives on creativity and problem-solving. I believe in delivering exceptional, user-centered websites that not only look great but also function flawlessly. I'm driven by a strong commitment to excellence and continuously strive for improvement in everything I do. My approach is all about balance—merging technical expertise with a sense of artistry to create seamless, engaging experiences. I'm always up for a challenge, and I find great joy in bringing ideas to life, ensuring that every project I work on reflects both my skills and my enthusiasm for digital innovation.

Education

Shri Shankaracharya Institute of Professional and Management Technology *Raipur, Chhattisgarh, India*
BTech in Computer Science *Nov 2021 - July 2025*

- Achieved an aggregate percentage of 83.4%, consistently performing well across core Computer Science subjects.
- Engaged in various technical workshops and hackathons to enhance practical knowledge and problem-solving skills.
- Worked on multiple academic projects, including a School ERP system and a Hospital Management System, demonstrating real-world application of programming concepts.
- Actively participated in college events, showcasing teamwork and leadership abilities in group activities and competitions.

Work Experience

Disyms, Bhilai *Bhilai, India*
Web Developer Intern *Feb 2024 - May 2024*

- Collaborated with cross-functional teams to enhance web applications by implementing friendly designs and improving overall functionality.
- Developed web designs using modern technologies and integrated third-party APIs, including payment gateways and location services.
- Gained experience in cross-browser testing, debugging , and documenting workflows to streamline team collaboration and project consistency.

The Karma Web, Raipur *Raipur, India*
Web Developer Intern *June 2024 - Oct 2024*

- Designed and implemented interactive and visually appealing user interfaces by leveraging modern front-end frameworks and libraries.
- Optimized website through techniques such as lazy loading, asset compression, and resolving technical issues to enhance usability.
- Collaborated effectively within a team to brainstorm innovative solutions, conduct code reviews, and deliver high-quality client presentations.

Projects

MENTOR

- **Developed a robust web platform** to streamline coaching center operations, including seamless teacher and student registrations, as well as course enrollments.
- **Implemented real-time attendance tracking** to provide instantaneous updates for both students and teachers, ensuring full operational transparency.
- **Introduced an automated fee management system**, incorporating payment reminders and detailed financial reporting for improved administrative oversight.

SNB (Hospital Management System)

- **Engineered a comprehensive hospital management system** featuring appointment scheduling, patient record management, and surgical planning modules.
- **Enabled online appointment booking** with real-time doctor availability and automated consultation reminders for enhanced user convenience.
- **Integrated staff scheduling and resource optimization** to streamline surgery planning and improve overall hospital workflow efficiency.
